Compositio Mathematica **80**: 355, 1991.

Contents Volume 80 (1991)

Volum 80, No. 1, October 1991

A. Némethi: Generalized local and global Sebastiani-Thom type theorems 1
F. Murnaghan: Asymptotic behaviour of supercuspidal characters of p-adic GSp(4) 15
Ke-Zheng Li: Actions of group schemes (I) 55
T. Chinburg: Capacity theory on varieties 75
Chong-Hai Lim: Endomorphisms of Jacobian varieties of Fermat curves 85

Volum 80, No. 2, November 1991

F. Rouviere: Invariant analysis and contractions of symmetric spaces: Part II 111
K. Nishiyama: Decomposing oscillator representations of $\mathfrak{osp}(2n/n;\mathbb{R})$ by a super dual pair $\mathfrak{osp}(2/1;\mathbb{R}) \times \mathfrak{so}(n)$ 137
W. Veys: Congruences for numerical data of an embedded resolution 151
D.B. Jaffe: On sections of commutative group schemes 171
P. Delorme: Théorème de Paley-Wiener invariant tordu pour le changement de base $\mathbb{C}/\mathbb{R}$ 197
T. Nakamura: p-Divisible groups with complex multiplication of $W(k)$ 229

Volum 80, No. 3, December 1991

D.R. Dorman: On singular moduli for rank 2 Drinfeld modules 235
K. Altmann: Equisingular deformations below the Newton boundary 257
J.-P. Bézivin: Les suites q-récurrentes linéaires 285
J.-S. Huang: Metaplectic correspondences and unitary representations 309
A.J. Parameswaran: Topological equisingularity for isolated complete intersection singularities 323
B. Lichtin: On the moderate growth of generalized Dirichlet series for hypoelliptic polynomials 337
